EXPLANATION: CAPITALS INDICATE MATTER ADDED TO EXISTING LAW.  
[Brackets] indicate matter deleted from existing law.

1 21–202.

2 (a) (1) Except for special pedestrian signals that carry a legend, where traffic  
3 is controlled by traffic control signals that show different colored lights or colored lighted  
4 arrows, whether successively one at a time or in combination, only the colors green, red,  
5 and yellow may be used.

6 (2) These lights apply to drivers and pedestrians as provided in this  
7 section.

8 (b) **[Vehicular] SUBJECT TO SUBSECTION (M) OF THIS SECTION, VEHICULAR**  
9 traffic facing a circular green signal may proceed straight through or, unless a sign at the  
10 place prohibits the turn, turn right or left.

11 (c) Vehicular traffic described under subsection (b) of this section, including any  
12 vehicle turning right or left, shall yield the right-of-way to any other vehicle and any  
13 pedestrian lawfully within the intersection or an adjacent crosswalk when the signal is  
14 shown.

15 (d) **[Vehicular] SUBJECT TO SUBSECTION (M) OF THIS SECTION, VEHICULAR**  
16 traffic facing a green arrow signal, whether shown alone or with another indication,  
17 cautiously may enter the intersection, but only to make the movement indicated by the  
18 arrow or to make another movement permitted by other indications shown at the same  
19 time.

20 (e) Vehicular traffic described under subsection (d) of this section shall yield the  
21 right-of-way to any pedestrian or bicycle lawfully within an adjacent crosswalk and to any  
22 other traffic lawfully using the intersection.

23 (f) Unless otherwise directed by a pedestrian control signal as provided in §  
24 21–203 of this subtitle, a pedestrian facing any green signal, unless the green signal is only  
25 a turn arrow, may cross the roadway, within any marked or unmarked crosswalk, in the  
26 direction of the green signal.

27 (g) (1) Vehicular traffic facing a steady yellow signal is warned that the  
28 related green movement is ending or that a red signal, which will prohibit vehicular traffic  
29 from entering the intersection, will be shown immediately after the yellow signal.

1           (2) Unless otherwise directed by a pedestrian control signal as provided in  
2 § 21–203 of this subtitle, a pedestrian facing a steady yellow signal is warned that there is  
3 not enough time to cross the roadway before a red signal is shown, and a pedestrian may  
4 not then start to cross the roadway.

5           (h) (1) Vehicular traffic facing a steady circular red signal alone:

6                   (i) Shall stop at the near side of the intersection:

- 7                           1. At a clearly marked stop line;
- 8                           2. If there is no clearly marked stop line, before entering any  
9 crosswalk; or
- 10                          3. If there is no crosswalk, before entering the intersection;

11 and

12                   (ii) Except as provided in subsections (i), (j), and (k) of this section,  
13 shall remain stopped until a signal to proceed is shown.

14           (2) Vehicular traffic facing a steady red arrow signal:

15                   (i) May not enter the intersection to make the movement indicated  
16 by the arrow;

17                   (ii) Unless entering the intersection to make a movement permitted  
18 by another signal, shall stop at the near side of the intersection:

- 19                           1. At a clearly marked stop line;
- 20                           2. If there is no clearly marked stop line, before entering any  
21 crosswalk; or
- 22                          3. If there is no crosswalk, before entering the intersection;

23 and

24                   (iii) Except as provided in subsections (i), (j), and (k) of this section,  
25 shall remain stopped until a signal permitting the movement is shown.

1 (i) Unless a sign prohibiting a turn is in place, vehicular traffic facing a steady  
2 red signal, after stopping as required by subsection (h) of this section, cautiously may enter  
3 the intersection and make:

4 (1) A right turn; or

5 (2) A left turn from a one-way street onto a one-way street.

6 (j) If a sign permitting any other turn is in place, vehicular traffic facing a steady  
7 red signal, after stopping as required by subsection (h) of this section, cautiously may enter  
8 the intersection and make the turn indicated by the sign.

9 (k) In each instance, vehicular traffic described in subsections (i) and (j) of this  
10 section shall yield the right-of-way to any pedestrian or bicycle lawfully within an adjacent  
11 crosswalk and to any vehicle in the intersection or approaching on another roadway so  
12 closely as to constitute an immediate hazard.

13 (l) Unless otherwise directed by a pedestrian control signal as provided in §  
14 21-203 of this subtitle, pedestrians facing a steady red signal alone may not enter the  
15 roadway.
